RATES OF POSTAGE ON LETTERS TO ANY PLACE WITHIN THE UNITED KINGDOM, &c.

If not exceeding ½ oz.....	1d.	If not exceeding 2 oz.....	4d.
.. 1 oz.....	2d.	.. 3 oz.....	6d.

And so on, adding 2d. for every ounce up to 16 ounces, beyond which, with the following exceptions, no packet, whether subject to postage or not, can be received:—

1. Parliamentary petitions and addresses to her Majesty.
2. Parliamentary proceedings.
3. Letters and Packets addressed to or received from places beyond sea.
4. Letters and Packets to and from Public Departments.
5. Deeds, if sent open, or in covers open at the ends; they may be tied with string and sealed, in order to prevent inspection of the contents, but they must be open at the sides, that it may be seen that they are entitled to the privilege.
6. Bankers' parcels despatched from London, and specially delivered at the General Post Office, under certain regulations.

With these exceptions, all Packets exceeding 16 ounces will be immediately forwarded to the Dead Letter Office, to be returned to the writers.

It is optional to send letters within the United Kingdom paid or unpaid; but, in the latter case, they are liable to a double rate of postage.

Printed votes and proceedings in Parliament, or of the Colonial Legislatures, are charged—

Under 4 oz.....1d.
Above 4 and under 8 oz.....2d.
Above 8 and under 12 oz.....3d. and so on.

Such votes and proceedings, whether paid or upaid, pass at these rates between places in the United Kingdom, and also to the Colonies by Packet. To those places to which there are no Packets, they may be forwarded by "Private Ship," at double the above rates. They are not, however, forwarded to the East Indies, *via* Southampton, nor to places through France, under the full rates of letter postage.

Letters bearing stamps in value equal to the amount of postage chargeable according to the first or "prepaid" column of the foregoing scale, will be delivered free in any part of the United Kingdom. In cases, however, where stamps of a less value than the rate exigible have been used, the letter is chargeable, on delivery, with double the amount of such difference.

Members of each house of Parliament are allowed to receive by the post, petitions and addresses to her Majesty, and petitions addressed to either House of Parliament, *not exceeding thirty-two ounces in weight, exempt from postage, provided such petitions and addresses be sent without covers, or in covers open at the sides.* Should they exceed that weight, they will not require to be prepaid, but are charged according to their weight as unpaid letters with double the rates of postage to which, if prepaid, they would be subject.

SHIP LETTERS.

Letters conveyed by *private* ship to places beyond seas are liable to a rate of—

Under ½ oz..... ..0s. 8d.
Above ½ oz. and under 1 oz. .....1s. 4d.
Above 1 oz. and under 2 oz.....2s. 8d.
And so on in proportion.

The Owners, Charterers, or Consignees, (resident in the United Kingdom,) and the Owners, Consignees, and Shippers of goods on

board vessels inward bound, are entitled to receive their letters free from sea postage, to the extent, collectively, of six ounces in weight, by any vessel to any one such person. In the case of vessels coming from Ceylon, Mauritius, the East Indies, or the Cape of Good Hope, the letters may be, collectively, twenty ounces in weight, for an Owner, Charterer, or Consignee of any such vessel. The Owner, Charterer, or Consignee must be described as such on the address and superscription; and in the case of Owners, Shippers, or Consignees of goods, it must also appear by the ship's manifest that they have goods on board the vessel. Such persons are entitled to have their letters, which come within the above conditions, before the master of the vessel delivers the other letters in his charge to the Post Office.

☞ Every person who shall, with intent to evade any duty of postage, falsely superscribe a letter as being the Owner, or the Charterer, or the Consignee of a vessel conveying the same, or as the Owner, or the Shipper, or the Consignee of goods shipped in such vessel, shall for every offence forfeit ten pounds.

REGISTRATION OF LETTERS.

Since January, 1841, a system of registration has been in operation, applicable to all descriptions of letters.

Letters intended for registration must either be stamped or prepaid, and presented at the Post-office at least 30 minutes before the closing of the letter-box for the particular mail by which it is to be despatched.

The British registration fee is 1s., and must always be paid in money, and at the time of registration.

In the case of Foreign, Colonial, or Ship letters, registration extends to the port of despatch in the United Kingdom only.

Registration fee on such letters, 1s., and, in addition, the rate of postage to which they may be liable.

Letters *addressed to France*, may be registered to their destination; and those *passing through France*, so long as they may remain in the French territory—the former on payment of double the French rate to place of destination, in addition to the British rate and British registration fee—and the latter on payment of the usual postage rate, and 1s. registration fee. The arrangements for carrying out the system of registration have been made with a view of insuring the punctual delivery of registered letters; on their delivery, the parties to whom they may have been addressed will be required to acknowledge in writing their receipt.

THE system adopted by this Company combines the principle of MUTUAL ASSURANCE, with the security of a large Subscribed Capital, and the support of nearly *Seven Hundred Partners* of wealth and influence.

Assurances are granted under a variety of forms, applicable to the various circumstances of individuals proposing to insure their own lives or those of parties in whom they have an interest.

PARTICIPATION IN PROFITS.

Parties desirous of participating in the profits of the Company may have Reversionary Sums added to their Policies, or an equivalent reduction made from their Annual Premiums.

From the success which has attended the Company's operations, both in the selection of Lives, and the Investment of the Premiums, the Directors confidently anticipate that, at the Investigation to take place in 1847, the Bonus will be equivalent to that declared by any other Proprietary Company in Scotland.

POLICIES WITHOUT PROFIT.

To insure *fixed sums*, the Company have adopted a scale of rates, which will be found highly advantageous in those transactions where the ob-

ject is the security of a definite amount. Specimens of the Tables will be found subjoined.

The business transacted by the Company may be classed under the following heads :—

The granting of ASSURANCES, *with or without profits, on single and joint lives and survivorships, and for limited periods.*

The granting of ASSURANCES *payable at death, or on the party attaining a given age.*

The granting of ENDOWMENTS *to Children, and of Present, Deferred, and Survivorship Annuities.*

The LENDING MONEY *on Redeemable Annuity over Entailed Estates ; and on Heritable and Personal Security, coupled with Life Assurance.*

The Purchase of Life-rent and Reversionary Interests

And, in general, the transaction of every species of business involving the contingency of human life.

Forms of Proposal, and every additional information, will be given on application at the Agencies of the Company in Great Britain and Ireland.

LIFE ASSURANCE DEPARTMENT.

The Advantages afforded by this Company are as follows:—

1. THE RATES are on the LOWEST SCALE consistent with safety.

2. Four-fifths of the whole Profits of the Life Assurance Business belong to the holders of Life Policies entitled to Participation. The full benefits of Mutual Assurance are thus conferred upon the Assured.

3. The First Investigation for the purpose of declaring a Bonus, will take place at 25th March, 1852; and similar Investigations will be made every Three Years thereafter.

4. The Policies of the Company are, by the Contract of Copartnery, rendered Indefeasible and Indisputable at Death, in every case where they have not been obtained by fraudulent or intentional misrepresentation or concealment; and a special clause to that effect is inserted in the Policies.

5. Parties may Assure either on the Participating or on the Non-Participating Scale.

6. Policies will be issued for any Sum from £20 upwards.
7. Surrenders of Policies will be received on liberal terms.
8. No Entry-Money charged.
9. Claims are payable three months after proof of death.

The Company grants Assurances on Joint-Lives and Survivorships, on the same moderate scale of Premiums; and also Endowments for Children; and Immediate, Deferred, and Survivorship Annuities; and, generally, it conducts the business of Life Assurance in all its branches.

FIRE ASSURANCE DEPARTMENT.

The usual moderate Premiums are charged. No Charge is made for Policies transferred from other Offices; nor in any case where the sum assured amounts to £300 or upwards.

GUARANTEE DEPARTMENT.

The Company undertakes to guarantee the Fidelity of Parties in Situations of Trust. This Guarantee is against all loss by '*Actings, Intromissions, Dishonesty, Fraud, or Failing to Account*,' and is therefore as ample as that of the ordinary Private Surety-Bonds.

Persons who are already Sureties for others, may transact with this Company for *Relief* of their Bonds.

Forms of Proposals, and all additional information, may be obtained at the Office here, or at any of the Agencies.

LIFE DEPARTMENT.

The following are the advantages offered by this Company:—

I.—SECURITY.

This Company possesses a very large subscribed Capital, divided among a numerous body of proprietors, and the absolute security so essential to a Life Assurance Society, is afforded in its most substantial form.

II.—PREMIUMS.

The Rates of Premium have been calculated expressly for this Company, and will bear a fair comparison with those of other Companies. No ENTRY-MONEY IS CHARGED. Parties may Assure either a specific Sum, payable at Death, on payment of a reduced rate of Premium; or, on payment of an increased rate, may participate in the Profit Scheme of the Company.

III.—DISTRIBUTION OF PROFITS.

Two-thirds of the Profit arising on the Participation Class of Policies *(without being subject to any charges for management)* are divided, every Five Years, among those entitled to participate, on the most equitable principles—viz., in the proportion each party has contributed to that fund.

FIRE DEPARTMENT.

This Company Insures almost all kinds of Property against Accidents arising from Fire, at Rates commensurate with the risk.

The Directors can, with confidence, refer to the promptitude and liberality with which Accidental Losses are adjusted by this Institution.

ALEX. WOOD, Esq., Dean of the Faculty of Advocates.
WILLIAM DALLAS, Esq., W.S.

THIS Society has been established upwards of THIRTY-FOUR years. All just claims upon its Funds have been promptly and liberally settled. Nearly TWO MILLIONS AND A HALF have been thus paid away on expired Policies; and to meet the existing engagements of the Institution, it possesses Funds amounting to upwards of A MILLION AND THREE QUARTERS, almost wholly invested on Real and Government Securities.

The Rates of Premiums are below those of most other Offices, and under the age of 45, *not less so than* TEN *per cent., a benefit in itself equivalent to an Annual Bonus;* whilst periodical additions are also made to the sums Assured upon all Policies for the whole duration of Life, in proportion to the amount of Premium paid. The full advantage of Life Assurance is thus enjoyed by the Members; and the Society, from its large accumulated Capital, and a BUSINESS embracing nearly EIGHT THOUSAND LIVES, presents the strongest claims to the favour of the public.

On 9th September last, a Bonus of *Ten* per cent. was declared on the total amount of Premium paid on all Policies for the whole period of Life, existing at 30th June, 1841, whereby a sum of £234,170 9s. 7d. was appropriated to the Insurers.

The subjoined List of some of the earlier Policies exhibits the aggregate amount of Bonus assigned to each of those Policies, including that declared at the last General Meeting.

IN THE MUTUAL DEPARTMENT, Assurances can be effected at a much lower rate of Premium than in a purely Mutual office, and that without incurring any risk or responsibility. FIVE SIXTHS (or upwards of 83 per cent.) of the Profits are divided among the Assured every five years; the remaining Sixth is added to the Guarantee Fund in return for the security afforded by the Subscribed Capital.

IN THE OTHER DEPARMENT, Assurances can be effected without participation in the profits at a reduced rate of premium.

The sums in the Company's Policies are all GUARANTEED. *No entry money is charged. Claims are paid Three Months after proof of death.*

DIVISION OF PROFITS AMONG THE ASSURED.

In 1841, *the Company declared a Bonus of* £2 *per Cent. per Annum on the Sum Insured to all Policies of the Participating Class from the time they were effected.*

The Bonus added to Policies from March, 1834, to the 31st Dec., 1840, is as follows:—

THE Directors solicit attention to the principles of this Institution, in the conviction that they offer greater advantages than those of any other Office, established or projected. As a MUTUAL SOCIETY, instituted solely for the benefit of the Members, it secures to them the greatest possible return for their Premiums, and the utmost liberality in the administration, consistent with principle.

The PREMIUMS, at early and middle ages, are about a fourth lower than in other Mutual Offices; so that the Premium usually charged for L.400 will secure about L.500 in this.

The WHOLE PROFITS belonging to the Assured themselves, and the principle on which they are divisible, is at once safe, equitable, and favourable to good lives.

BY THE USUAL PRACTICE, the representatives of a person assured for L.1000, and dying in six or eight years after entry, will carry off not only the original sum in this Policy, but a further sum, in the name of *Profit*, although the Premiums, which he has lived to pay, will not amount to one fourth of his original assurance, and, therefore, the common fund has already been loser by him to the extent of more than L.750. In this Office, the surplus *is reserved entire for those Members who survive the period at which their Premiums, with accumulated interest, amount to the sums in their Policies.* Being thus divided among a comparatively small number, the share, or bonus, falling to each, will necessarily be much greater than by the usual mode.

The SCOTTISH PROVIDENT INSTITUTION IS THUS THE ONLY OFFICE WHICH COMBINES THE ADVANTAGES OF MUTUAL ASSURANCE WITH MODERATE PREMIUMS.

Reports of the Recent Investigation, exhibiting a highly prosperous state of the Society's Affairs, may be had on Application.

Examples of Premiums for Assurance of L.100 *at death :—*

Age.	Payable for the Whole of Life.	Payable during 21 Years only.
25	L.1 18 0	L.2 10 8

40	2 14 9	3 6 4
45	3 5 9	3 14 9
50	4 1 7	4 7 2

Thus, a person of 30 may secure L.100 at death for a yearly Payment, *during his life*, of L.2, 1s. 6d. only; or, he may secure the same amount at death for a yearly premium of L.2, 14s. 6d., ceasing on his attaining the age of 50—being thus entirely relieved of payment before he has passed the prime of life, and that for nearly the same premium as other Mutual Offices require for the whole of life.

Edinburgh—OFFICE, 19, GEORGE STREET.

THIS Company offers to the Public ample security and moderate rates of Premium, with liberality and promptitude in the settlement of claims.

They have adopted various Tables for Life Insurance, with a view to suit the convenience of Parties wishing to effect Insurance either on their own Lives, or on the Lives of others, which may be done at a low rate, without any share in the profits, or at a somewhat higher rate with the right to participate in the profits to the extent of five-sixths: the Capital of the Company at same time affording a guarantee against liability for loss.

A few examples of the Bonuses declared on Participating Policies at the last investigation of the Company's business, will show the advantages of joining this department:—

	Sums Insured.	Duration of Policies.	Bonuses declared.
A ...	£500 ...	5 years. ...	£25
B ...	1000 ...	6 " ...	60

These Bonuses are added to the sums insured, or their present values are paid in cash, or a corresponding deduction is made from the Annual Premium.

The following is a specimen of rates for Insuring £100 on a single Life, according to a Table just adopted by the Company, whereby only two-thirds of the Premium is charged; the other third remaining at interest, to be deducted from the sum insured when the Policy emerges, or which may be paid off at any time convenient for the party:—

Of all the productions that are imported into this country, that of TEA has now become the most important, both for its vast consumption and for the immense sum it yelds annually to the revenue. Two hundred years ago its existence was unknown to the people of Great Britain, and, on its first introduction, it was sold in the liquid state—the price being about 60s. per lb. Since then its consumption has gone on progressively increasing, and the amount of money expended on this article alone may now be stated as exceeding £11,000,000 sterling. To the East India Company, under whose direction and control for a century and a half the importation of this article was confined, we are indebted for that regularity of supply, the soundness and quality of which have proved to be so well adapted to the tastes of the people of this country.

TO THE

INHABITANTS OF ABERDEEN,

AND THE

NOBILITY, GENTRY, CLERGY, AND FAMILIES THROUGHOUT THE NORTH OF SCOTLAND.

IN introducing ourselves to your notice a few months ago as PROPRIETORS of the TEA ESTABLISHMENT, 66, Union Street, Aberdeen, we said that we should conduct it upon the same principles as those which had secured to our predecessors so large a share of public patronage. Those principles have obtained for us the reputation of selling an article **pre-eminent for the excellence of its quality**; and in the result our anticipations have been abundantly realized—*first*, in having unquestionably established the largest ready-money TEA and COFFEE Trade in Aberdeen; and *secondly*, in having secured the confidence of an extensive connection—proofs of which are daily afforded us by correspondence from the resident gentry in the north of Scotland.

The Tea Market still rules extremely moderate, and we now proceed to submit to your inspection the following revised "Scale of Prices," which, when taking **character** and **quality** into consideration, we challenge any other house to surpass. Those distinguished by "recommended" are the prices to which we more particularly direct your attention.

Families, Hotel-keepers, and establishments of magnitude, will find it to their advantage to purchase original packages, containing 10, 20, 40, and 80 pounds, upon which we shall allow the usual overweight granted by the Customs, which generally reduces the cost 2d. per lb. We shall also pack all descriptions of Tea in four and six pound Catties,—on which a proportionate overweight will also be allowed. To our Country Customers these packages are particularly recommended, as being less liable to injury in transit than any other mode of packing.

COFFEE.

The advantages to be derived from the use of Coffee deserve for it a far greater consumption than we find it has obtained in this part of Scotland; and we believe this can only be accounted for by what we have ascertained to be a fact, that the article has not received that care and attention in its selection and preparation for the market necessary to meet the *growing* taste for a beverage so consistent with health and pleasure. Under judicious management, we doubt not but that its use will become as universal here as in any other part of Great Britain. Most of you are aware that in the countries of the East, and where some of its finest specimens are produced, it almost supersedes the use of every other beverage. To procure the pleasure which Coffee drinkers enjoy, it is necessary that it be made from Coffee of *good quality*, and be served up to the table strong, hot, and clear.

We respectfully invite your attention to the subjoined list—

COFFEES, FRESH ROASTED.

Ceylon, ... 1s 0d
FINE JAVA, ... 1s 2d
Peruvian and JAVA, ... 1s 4d—recommended
FINE COSTA RICO and JAMAICA, ... 1s 6d—recommended

FINEST MOCHA, ... 1s 8d—recommended
Mocha and Rio mixed, ... 1s 8d
Bourbon and the finest Mocha mixed, ... 1s 10d—much recommended
THE FINEST BOURBON, ... 2s 0d

We beg to remind you that we have, in connexion with Tea and Coffee, always on hand an assortment of SPICES and Italian Goods, with other articles belonging to a general Grocery Business—taking care, however, these do not distract our attention from the more *primary articles* of our Trade, TEA and COFFEE.

Payment of Goods forwarded to the country is not required until they have been *duly received and approved of;* but in case the purchaser is unknown to us, it will be necessary to accompany their order by a remittance or respectable reference, as it must be evident that our system of SMALL PROFITS will admit of neither CREDIT nor RISK.

The greatest attention paid to Country Orders; and those for the City and Suburbs punctually delivered at the time required.

ABERDEEN,

ESTABLISHED 1843,

REQUEST public attention to the following FACTS:—Their Stock of Hats for the season is VERY EXTENSIVE, WELL SELECTED, and purchased under all the advantages which SKILL and CAPITAL CAN COMMAND. SMALL PROFITS—LARGE RETURNS, is the system of business to which they unswervingly adhere, by which SYSTEM they have (SINCE THEIR OPENING) reduced the scale of Prices of HATS in Aberdeen from a MONOPOLY CHARGE to the same standard as in all the principal Commercial Towns of the Empire, and secured for themselves a patronage which renders them the OBSERVED of all OBSERVERS. And from the very gratifying fact, that they are daily seeing their efforts to please crowned with such

TRIUMPHANT SUCCESS,

in a gradually extending Trade, the Public may rely on having the full benefit of their combined PRACTICAL SKILL, KNOWLEDGE, and ABILITY, as they make a point of admitting no Goods into their Establishment which they cannot warrant to give perfect satisfaction to their Customers.

THE NORTH OF SCOTLAND GAZETTE,

IS PUBLISHED AT NO. 42, CASTLE STREET,

ABERDEEN,

EVERY TUESDAY MORNING,

IN TIME FOR THE EARLIEST MAILS.

THE GAZETTE is the *largest* and *cheapest* Newspaper in the North of Scotland, and no exertions will be spared to make it the *best* as regards either the freshness or the variety of its intelligence.

In addition to a mass of interesting topics, it contains the latest and most important Local and General News, Commercial and Agricultural Intelligence, Shipping Lists, with an account of the principal Grain and Cattle Markets, &c. &c.

In so far as general Politics are concerned, the GAZETTE preserves strict neutrality; but its columns exhibit a concise yet comprehensive view of the varied and complicated movements of the whole political system. Unbiassed by party, it gives weekly a faithful and impartial record of Domestic and Foreign Affairs,—the sole aim being to afford every necessary information to the Politician, to secure the countenance and patronage of the Man of Business, to interest the Farmer as well as the Proprietor of the Soil, to instruct and amuse the more General Reader, and in every way to make the GAZETTE a COMPLETE FAMILY NEWSPAPER.

A distinguishing feature in the management of the GAZETTE, and worthy the particular attention of *Advertisers*, is an extensive Gratis Circulation among influential individuals of all shades of opinion, *business* alone being the ground-work of its varied ramifications—this arrangement insures its reception in circles where party papers are excluded.

In addition, therefore, to a very numerous and respectable List of Subscribers in town and country, and nearly equal to any of the leading journals in Aberdeen, the GAZETTE is sent *gratis* to the leading Noblemen, Gentlemen, Bankers, Factors, Agents, Merchants, extensive Farmers, Hotel and Inn-keepers, &c., connected with the Northern dis-

tricts of Scotland, giving Advertisers the benefit of a guaranteed circulation of upwards of Three Thousand copies.

OF THE

OF THE

NORTH OF SCOTLAND FIRE AND LIFE ASSURANCE COMPANY,

Held within the Company's House in Aberdeen, on 10th July, 1846, to receive a Report, by the Directors, upon the FIRST INVESTIGATION of the Company's Affairs, and to declare

A BONUS

Upon the Participation Policies.

DR. CRUICKSHANK, Chairman of the Company, having taken the Chair, said—

We have the pleasure of meeting you again, according to appointment, to lay before you the report founded on our recent investigation, and I shall detain you from hearing it only by noticing very briefly one or two heads of it, which seem to merit particular attention. First, as to the amount of our business. You will find that few companies have done so much within the first ten years of their existence. It is the more remarkable in our case, considering that no small portion of the period consisted of years of severe pressure on those classes of society which are more especially called upon by their circumstances to make present sacrifices, in order to avert the danger of future difficulties to themselves or their dependants. (Applause.) If we reckon the number of insurance companies now in existence, it may appear surprising that there is business for them all. We must infer that the amount of such business is now far greater in proportion to the population than it was not many years ago. This is chiefly to be ascribed to the more extensive and accurate knowledge which now prevails on this subject. Let me add, that every one who is interested in the prosperity of an insurance company ought to do what he can to render this knowledge still more extensive and still more influential. He may thus lead others to measures conducive to their future good, and he will benefit the company with which he is connected, by rendering the profits greater in proportion to the necessary expense of management, and the annual rate of mortality among the assured more conformable to previous calculation. Nothing, you are aware, appears more irregular than the waste of human life in a small number of individuals; but the near approach to certainty with which it can be predicted for a large number is very remarkable. Increase of numbers, therefore, not only diminishes comparative expense, after the first sacrifices which may be necessary to secure a standing in eligible situations, but also gives a steadiness, which is of great importance in the affairs of an insurance company. Next, as to the *bonus* proposed to be declared. The report about to be read to you will direct your attention to the important fact, that in judging of the *bonus*, as to its being favourable or otherwise, you must take into account the rate of premium which has been paid to secure the right to it. You will therefore find a comparison instituted between the *bonus* now proposed by this company and what the same amount of premiums would have procured, at

different ages, from each of two other companies whose affairs are considered very prosperous. I am sure, however, that none of us entertain any jealous or hostile feeling towards other companies. We are likely to go on together towards still higher prosperity, our success arising from the same general causes, the increased efficiency of which is so desirable, but modified in some degree by peculiarities which will often influence different individuals in different ways. (Applause.) The chairman then requested the manager to read the report of the directors.

The Manager accordingly read the Report, which showed—

I. The Assets of the Company at 30th April, 1846.
II. The Liabilities of the Company.
III. The Premiums received during that time upon Life Policies, Annuity and Endowment Policies, with the amount of Assurances effected.
IV. The Claims which had emerged in each year, and a comparison betwixt the mortality, as exhibited by the Company's records, and that of the Government Annuitants.
V. The amount of the Sinking Funds in the different departments of the Company's business.
VI. A general view of the whole of the Company's affairs for the last ten years.

THE REPORT

Then proceeded as follows :—

"Upon the 30th of April last, the Company completed its tenth year, the period fixed by the Contract of Copartnership for an investigation into the state of its affairs.

The Directors are aware that this investigation has been looked forward to with considerable interest, and they are of opinion that they are best discharging the duty entrusted ed to them, by giving such information to the Proprietors and Participation Policy Holders as will convey to them a knowledge of the nature and extent of the business which has been done by the Company for the last ten years.

They also feel that in entering upon the periodical investigation of the Company's affairs, a duty of great responsibility devolves upon them; and more especially do they hold this to be the case upon a *first* investigation, when they must settle the principles upon which it is to be conducted, and by the adoption of certain *data* as the basis of their proceedings, either forward or retard the future prosperity of the Company.

In order that the whole question should be fully considered, and that an inquiry, embracing a variety of minute details and an estimate of the whole Assets of the Company, should be conducted in the most searching manner, the Directors thought that this object could be best attained by devolving the duty upon a professional Gentleman, unconnected with the previous management of the business; and they accordingly appointed Mr. Robert Russell Notman, Accountant in Aberdeen, to conduct the investigation, with the assistance of Dr. Cruickshank, Professor of Mathematics in Marischal College, and Mr. Henry Paterson, Manager of the North of Scotland Bank, (two of their number,) and Mr. Alexander Anderson, Advocate in Aberdeen, one of the Law Agents of the Company. They may state also that these Gentlemen being Policy Holders on the Participation Scheme to a large amount, the interest of that class of the Assured is fully protected by the nomination of this Committee.

The Committee have gone over the whole of the Assets of the Company, and submitted a detailed estimate thereof to the Directors, amounting to £144,186, 19s. 4d. They have also submitted a Report from the Actuary, showing the whole Liabilities of the Office, and which Report is now on the table.

In valuing the Liabilities of the Office, the same Tables have been adopted as those upon which the Premiums were formed—viz., those deduced by Mr. Finlaison, from observations on the Government Annuitants, and which suppose money accumulated at four per cent. Separate calculations have been made for each Policy; and previous to the valuation, the whole sums which have been added to the net Premiums for expense of management and contingencies, varying from ten to twenty-five per cent., were deducted, so that the Directors have not anticipated in the smallest degree any profit which may arise from this source, or allowed themselves to be led away, for any temporary purpose, from that strict valuation of their Liabilities, which is the surest guarantee of the stability of an Insurance Office.

The future sources of profit, therefore, will always remain the same, viz.:—

1. Any difference betwixt the *assumed* and the *real* rate of Interest, which at present is from a Half to One per Cent.;
2. The difference betwixt the actual and the anticipated Mortality;
3. The profit upon lapsed and surrendered Policies; and
4. The difference betwixt the per Centages added for Management and the Expenses which may be incurred.

The Directors having had before them the different methods in use for apportioning the free profit among the Policy holders, have resolved to adopt that plan which constitutes the sum insured and the duration of the policy the elements on which the division is made.

All the Assurances current upon the 30th of April last will have assigned to them a bonus proportioned to the sum insured, and to the number of years which have elapsed since the opening of the Policy. At next investigation, in 1851, the additions will be made for the five years preceding, upon the sum contained in the policy, increased by the bonus now declared. Each investigation, therefore, constitutes a distinct resting place from which a new departure is taken, the bonus being regulated at each succeeding period, not by the original sum insured, but upon that sum increased by the former accumulations of profit.

It is almost unnecessary to state that this system is pursued by the Scottish Widows' Fund, and recommended by the example of the Scottish Equitable, North British, and a variety of other Offices. The Directors may be permitted to say, that although, in their opinion, the plan is not altogether free from inequalities, yet, as a whole, it adjusts the interests of the different classes of policy holders, with very considerable precision, and they trust that it will be satisfactory to all concerned.

After allowing an ample Fund for contingencies, the Directors are enabled to propose additions to all Policies opened on or before the 30th day of April, 1846, at the rate of one and a fourth per Cent. per Annum upon the sums insured, for each Annual Payment made; and in relation to Policies where the payments are made by Single Premiums, or by any mode of contribution other than Annual Payments, the same rate of additions as if the Assurance had been granted upon Annual Premiums.

The following Table exhibits the additions which the Directors propose to make upon Policies of £1000.

From the surplus on this Fund, the Bonus might have been extended to one and a half per Cent.; but, with the concurrence of a Committee of Participation Policy holders, the Directors have, on the present occasion, limited the Bonus to one and a quarter per Cent., with the view of equalizing the future Profits.

In comparing the additions declared by different Companies, it is obvious that the amount of benefits to be received at death is no criterion of the superiority of one Office over another, unless the Premiums required to secure such benefits are also compared; and the Directors, therefore, request the attention of the Policy holders to the following Table, which exhibits the sums which the same Premium would insure with the North of Scotland Company, and with two other Offices; one, in point of business, standing at the head of the Mutual, and the other at the head of the Proprietary Companies. The amount of Bonus is also given upon the supposition that the Policies have been in force for *ten* years.

NOTE.—The Scottish Widows' Fund charges 10s. per Cent. for entry-money, and in t above calculation this is represented by an equivalent Assurance in the North Scotland and Standard Companies. A comparison at the higher ages shows l favourably for the North of Scotland Assurance Company; but this arises from t l ger profit being divided among those by whom it is principally contributed. T reversionary additions range from *Thirty-five* to *Fifty-four* per Cent. upon the P mium payable by middle aged lives.

There is a disadvantage to the North of Scotland Company in comparing its Polic after *one* investigation with those of Offices which have made *two* additions to their polic within that period, as the second addition includes a bonus upon the first one. At next investigation of this Company, in 1851, a comparison for the ten years preced would show a considerable addition to the amount of bonus, *even at the present rate of and a quarter per cent.*; but, judging from the business already done, the Directors ex that they will be able to increase the per centage of bonus addition at that time.

As compared with those Companies which still use the Northampton 4 per cent. ra and declare a bonus of from 1 to 1½ per cent. only on the sums insured, the total ben to parties assuring with the North of Scotland exceeds considerably the results brou out in the above Table.

The Directors propose that the Bonus shall vest immediately, and *be payable with sum assured whenever the claim emerges:* a certainty is thus given to the payment of declared additions which increases their value, upon Policies which have not bee existence five years, by removing all chance of the additions being forfeited, should lives fall within that time. The Directors see no just reason for withholding the be on such policies, because the lives assured have unexpectedly fallen. The bonus, in t opinion, when once declared, ought to be as firmly secured as the assurance itself; the same reasoning which would retain for the Company the bonus on policies lap within five years of their opening, would go far to forfeit the sum assured. By rende the bonus equally indefeasible with the sum contained in the policy, the Director doubt give up an advantage usually taken by Offices, but one which they believe o not to exist, as the assured, by the payment of the same premiums for a *fixed* a ance, could have secured a higher sum, payable immediately upon death, and wit reference to the time which the Policy had existed.

By the XXXIII. clause of the Contract, the investigation is ordered to be made a end of every *seven* years. The Directors consider this interval too long; and pro that the investigation should be a *quinquennial one*, especially as they have not dec any prospective additions. A resolution to this effect is appended to this report.

The Directors have finally to submit that, without taking too sanguine a view o Company's affairs, the business actually on the books is sufficient to secure to th ticipation Policy holders an ample bonus at each periodical investigation; and the cies will therefore form not only a provision which prudence will be anxious to se but an investment periodically becoming more valuable by successive accumulations

The following resolutions are now submitted for the approval of the Proprietors. second, if now approved of, will require to be confirmed at the first General Meeti the partners, before it can become a fundamental law of the Company.

JOHN CRUICKSHANK

The Chairman said the two resolutions might be taken together. The first was
ubstantially that the bonus proposed in the report should be approved of by the Com-
any, and should be vested in the same manner as the sum insured under the original
olicy. When they approved of the report they approved of this resolution. By the other
esolution it was proposed that the general investigation of the affairs of the Company
hould be held once in five years, instead of seven, as provided by the contract. This
hange would make their practice more conformable to that of other Companies; it
ould enable the Directors to see their way more clearly, because minute investigations
ould occur more frequently; it would also tend to equalize the benefits of the Bonus,
y fixing them at shorter intervals. He begged to read the Resolutions, which were
follows:—

RESOLVED,

"FIRST.—That all Policies opened upon the Participation Scheme, on, and prior to, the
th day of April, 1846, are hereby declared entitled to an addition corresponding to one
d a-fourth per cent. per annum upon the sum assured; and that this addition shall be-
me vested and be payable along with the sum assured, in the same manner as if it
med part of the original Assurance, and were specially included in the Policy."

"SECOND.—That that part of Article XXXIII. of the Contract, which provides that the
estigation shall take place upon the expiry of every seven years after the expiry of the
t ten years from the formation of the Company, shall be altered: And it is hereby
clared, that the next investigation shall take place upon the 30th day of April, 1851,
l quinquennially thereafter:—anything in the Contract to the Contrary notwithstand-

Dr Pirie, Professor of Divinity in Marischal College, said—Mr Chairman and Gentle-
n,—I have been called upon to second these resolutions, and I feel it to be a high hon-
I feel the deepest satisfaction, as every Christian man, more especially in the
ation in which I am placed, must feel in coming forward in support of an institution,
se object is to maintain the cause of the widow and the orphan—and must again ex-
s my sense of the honour of being selected for the purpose for which I address you.
r the admirable statement which we have just heard made by our worthy chairman,
the full and most satisfactory report of the Directors, it is unnecessary for me to
e any lengthened remarks,—indeed to enter into the subject at all. I will, therefore,
ne myself to one or two points in the few words which I have to say to you. I
been much gratified, and I doubt not that every one present is the same, with the
llent report which we have heard. (Applause.) I was astonished to find my-
ll per cent. richer on the small sum for which I have insured. I am so much
r than I expected; and this is but a specimen of the general results. For these
e indebted to the great zeal, discretion, sound sense, and practical wisdom of the
ctors of the Company. (Cheers.) The success of the Company is particularly
ed in the prosperity of the participation branch. The Scottish Widow's Fund,
he Standard Company, which are at the head, one of the proprietory, and the other
e mutual assurance companies, have been selected for comparison. But even
most prosperous institutions have been outstripped by this provincial institution.
ause.) True, we have availed ourselves of all new improvements in assurance.
hen, these companies have done the same. We must, therefore, look for another
of prosperity. To me it appears that one great cause is the liberality with which
oprietary company have conducted the participation branch at the rate of ten per
This has appeared to me and to many, to be too favourable terms; but I am
f opinion that if they had only 5 per cent. it would pay, provided the present suc-
the company continue, of which I have no doubt. It appears that of late there has
considerable increase of knowledge on the subject of assurance; but it is as appa-
at the increase has been by no means to the extent that is desirable. Were it so,
an, every poor man, every professional man—every one whose income is liable

to be affected by ordinary contingencies, would provide by insurance for those wh under the providence of God, have been made dependent upon him. (Hear, hear. But we see that the great mass of the public are unmindful of this advantage. I therefore becomes us to urge upon the public, to urge upon all connected with us the duty incumbent upon them of resorting to this mode of provision for their families But there are higher motives why we ought all not only to urge upon our neighbour the duty of insuring their lives, but to insure ourselves to the fullest extent which ci cumstances will permit. It will aid in conferring a great benefit upon our fellow-cr tures, and in lightening the burdens of life to many, and the woes and misgivings many a deathbed; for I doubt not it will then be a source of consolation to us, a smooth a dying pillow, in that day when even "the keepers of the house shall tremble." —(Applause.)

The resolutions having been then put from the chair, were carried una mously, (the second being subject to confirmation at next General Meeting.)

The Chairman then proposed that

JAMES EDMOND, Esq., Advocate;
JAMES FARQUHAR HADDEN, Esq., Manufacturer
BENJAMIN MOIR, Esq., Merchant;

should be named by the participation Policy-holders "as a Commitee of the number, to sit and vote along with the Ordinary Directors in all matters to ing the investment and management of the funds of that branch of the C pany," as authorised by the Contract of Copartnery. And the proposal wa animously agreed to.

The special business for which the Meeting was held being now concluded, P vost BLAIKIE moved a vote of thanks to Professor Cruickshank for his cond in the chair, and the Meeting separated.
